I'm employed as a shift manager and working full-time 9-hour shifts overseeing daily labor, sales, and people positioning. I'm currently looking for a career change, so for the past 8-months, after I would finish work and after my family duties, I have managed to find a few hours each day to study and practice HTML, CSS, and Javascript basics as well as best practices, and also technologies such as Git and Ajax, to land me my first web development job. I also have experience using Shopify's partner program, on which I make use of JSON schemas and Shopify's ThemeKit to assist in my workflow. My goal right now is to either find a job or begin freelancing to allow me to continue my learning full-time. It has not been easy finding the time and I have had to make sacrifices, but I truly love software development, and it suits me to a tee. Although I lack formal education, I believe what I have learned so far, coupled with my passion and perseverance, is enough to be an assistive, and soon after, an instrumental member of your team.

Employment

10/2013 - present

Shift Manager | McDonald's

I have 6 years of experience as a shift manager with common duties that include people positioning, controlling of labor, and helping my store manager increase sales by providing a great overall customer experience.

- helped implement a procedure that, when busy, sped up the drive-thru and increased sales by 10% over two 2-hour periods
- created job-specific spreadsheets for cashing up and counting the safe which increased accuracy and speed. these were then shared among all four of our franchise's stores

09/2006 - 10/2013

Lawn Specialist | JMS lawn Maintenance

Began part-time, which leads to a full-time trainee position renovating and maintaining mostly sports turfs like tennis courts and bowls greens and some domestic garden lawns. We were a diligent 2-man team whose results spoke for themselves. we so in demand that we had to begin declining work.

Education

04/2020 - present

Front-End Web Development | Self Taught

- Currently learning how to use AJAX to POST and GET data from a database.
- Shopify theme development
- Vanilla EC6 JS for DOM manipulation.

2015 - 2016

Level 3 Diploma in Shift Management | McDonald's

Additional Qualifications

- Level 3 Supervising Food Safety in Catering
- Level 2 HABC Award in First Aid at Work

2007 - 2008
